

**CERTIFICATION PROGRAM****Examination Score Report****Haonan Chen****Oracle Testing ID:** OC1726578

1Z0-051 Oracle Database 11g: SQL Fundamentals I

**Exam Date:** 09/15/2017**Registration:** 322127470**Center ID:** 80415**Your
Score:** 78%**Passing
Score:** 60%**Result:** Pass

Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

- Control the order of rows returned
- Create and maintain indexes
- Create, maintain, and use sequences
- Describe the use of group functions
- Describe various types of conversion functions that are available in SQL
- Join a table to itself by using a self-join
- List the data types that are available for columns
- Sort the rows that are retrieved by a query
- Use character, number, and date functions in SELECT statements
- Use the TO_CHAR, TO_NUMBER, and TO_DATE conversion functions

If this is the final exam in your certification path, you are required to complete the following steps.

- Visit certification.oracle.com and select your certification path to ensure you are aware of all certification requirements.
 - Note that completion of the required training and approval of the course submission form are also required in paths that require training.
- Check certview.oracle.com to confirm that all completed components are in your profile.
 - If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
 - Contact www.pearsonvue.com/oracle/contact to merge your IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the 'surviving id').
